K01#MV79.005.700 CYLINDER

GRIPPERS

- Grippers for feeder and delivery systems
- For use on Heidelberg range of presses including GTO, MO, KOR, KORA, KORD 62, KORD 64, KORS.
- Available with standard steel, rubber and polyurethane tips
- Gripper for other press makes and models available on request.

WEDGES

- Plastic Wedges for use in separating the paper pile.
- Manufactured in strong, durable Polypropylene material resistant to ink, oil and dirt
- Smooth and strong lead edges make insertion into the paper stack easy without damaging stock. The use of the finger holes makes extraction equally simple.
- For use at the feeder for positive pick up and at the delivery section for accurate jogging quantities.
- Only four sizes suit entire press range from small to large offset
