

DURAWIRE

Stitching Wire, Staples and Pushing Handles

The DURAWIRE Stitching Wire and Staples are manufactured for bookbinding applications to the highest quality, to enable maximum quality and performance in bookbinding and print finishing.

STITCHING WIRE

APPLICATION

DURAWIRE Stitching Wire is used for book binding and stapling, printing and packaging.

RANGE

- Flat or Round Stitching Wire available in a wide gauge range.
- Mild or Hard steel.
- Spools sizes from 2kg through to 500kg.
- Stitching Wire is applied to the reels with a special traverse technique to allow trouble free wire unwinding.
- Available for Heidelberg – Motter – Muller – Beilomatic – Rosback – McCain – Dulpo – Ferag – Hohner

QUALITY

Standard DURAWIRE is polished galvanised mild stainless steel which has a good appearance and resistance to corrosion. Both Mild and Hard is made from good quality steel and goes through an annealing and plating process to give consistent properties and adherent coatings. Stitching wire is available in other finishes such as copper and bronze. For smaller runs it is possible to use nylon-coated wire, this is more expensive but enhances the appearance of the book cover.

AVAILABILITY

Round Stitching Wire – mainly used for bookbinding and print finishing but can also be used for the manufacture of lightweight cartons. Reel sizes – 2kg, 3.5kg, 15/20kg, 35kg, 100kg

PCS REFERENCE	Size	Gauge
SW46	0.46mm	28
SW50	0.50mm	27
SW53	0.53mm	26
SW55	0.55mm	25
SW60	0.60mm	24
SW70	0.70mm	23
SW76	0.76mm	22
SW80	0.80mm	21
SW90	0.90mm	20
SW100	1.00mm	19

Narrow flat stitching wire – used for specialised jobs in the bookbinding and printing industries including catalogues etc. Broad flat stitching wire is available for use on larger boxes.

Reel sizes 2kg and 3.5kg

PCS REFERENCE	Wire Size
S1F	0.80 x 0.50mm
S2F	0.80 x 0.55mm
S3FS	0.80 x 0.60mm
S4F	0.90 x 0.55mm
S5F	0.89 x 0.63mm
	0.90 x 0.60mm
S6F	1.00 x 0.80mm
S7F	1.00 x 0.90mm
S8F	1.20 x 1.00mm

DURAWIRE STAPLES

APPLICATION

Used for stapling

RANGE

The DURAWIRE range of staples suit most machines.

QUALITY

Staples made of top quality materials - Stainless Steel, Copper or Brass.

AVAILABILITY

- Available in all sizes to fit most stapling machines.
- Sold in quantities of 1000 to 5000 per box depending on the type.
- Paul Schall-McGill's-Rexel-Etona-Rapesco-Rapid-Nagel Multinak etc.

DURAWIRE PUSHING HANDLES

APPLICATION

Used to guide collated books on paper conveyor. If a problem arises and the conveyor is halted they break off therefore preventing damage to the machine.

RANGE

DURAWIRE Pushing Handles are suitable for use on Muller Martini, Wohlenberg and other leading makes of collator, folder, stitcher machines.

QUALITY

- Manufactured from top quality HDPE and PPH thermoplastic material.
- Precision engineered with low tolerances to ensure conformity to specification required by the OEM

AVAILABILITY

DURAWIRE Pushing Handles can be manufactured to your customer's exact requirements (sample or drawing required).

DURAWIRE BUCHBINDERDRAHT, HEFTKLAMMERN, PUSHING HANDLES

BUCHBINDERDRAHT

Flach oder rund
2 – 500 kg Spulen
Kupfer- und Bronzedraht ist ebenso erhältlich wie nylonummantelter Draht.

HEFTKLAMMERN

1000 – 5000 pro Box
Paul Schall-McGill's-Rexel-Etona-Rapesco-Rapid-Nagel Multinak etc.

PUSHING HANDLES

Kontrollieren die richtige Position der Bücher am Fließband
Für Muller Martini, Wohlenberg etc

DURAWIRE ALAMBRE, GRAPAS Y PUÑOS DE EMPUJE

ALAMBRE

- Alambre plano o Redondo
- Acero ligero o duro
- Bobinas de 2 kgs a 500 kgs
- De fácil desenrollado
- Disponible para Heidelberg – Motter – Muller – Beilomatic – Rosback – McCain – Dulpo – Ferag – Hohner

Ligero revestimiento pulido del alambre en acero inoxidable para dar mejor apariencia y resistencia contra corrosión.

Revestimiento de alambre disponibles en cobre y bronce así como en nylon.

Alambre Redondo – Para encuadernación y acabado – también para cartón ligero.

Tamaño Bobinas – 2kg, 3.5kg, 15/20kg, 35kg, 100kg

Alambre Plano – Para trabajos con catálogos especializados.

Alambre plano ancho para uso en cajas grandes

Tamaño bobinas 2kg y 3.5kg

GRAPAS DURAWIRE

Materiales de alta calidad – Acero inoxidable, Cobre y latón.

Medidas ajustables a la mayoría de máquinas de grapado

De 1000 a 5000 por caja

Paul Schall-McGill's-Rexel-Etona-Rapesco-Rapid-Nagel Multinak etc.

PUÑOS DE EMPUJE – DURAWIRE

Para guiar libros

Para uso en Muller Martini, Wohlenberg y otras marcas de máquinas Collator, Folder, Stitcher.

Alta calidad HDPE Y PPH material termoplástico

Especificaciones OEM

DURAWIRE FIL A PIQUER, AGRAFES ET POIGNEES

FIL A PIQUER

- Plat ou rond
- Acier léger ou dur
- Bobines de 2kg à 500kg
- Facile à débobiner
- Disponible pour machines Heidelberg – Motter – Muller – Beilomatic – Rosback – McCain – Dulpo – Ferag – Hohner

Inox léger, poli et galvanisé pour esthétique et résistance à la corrosion

Disponible en laiton et bronze, ainsi qu'en revêtement nylon

Fil Rond – pour reliure et façonnage, ainsi que cartonnage léger.

Bobines de – 2kg, 3.5kg, 15/20kg, 35kg, 100kg

Fil Plat et Etroit – pour catalogues et travaux spécialisés dans la reliure

Fil plat et large – pour boîtes en cartons et cartons ondulés.

Bobines de 2kg et 3.5kg

AGRAFES DURAWIRE

Matières de haute qualité – inox, cuivre ou laiton.

Tailles disponibles pour la plupart des agrafeuses.

De 1000 à 5000 par boîtes

Paul Schall-McGill's-Rexel-Etona-Rapesco-Rapid-Nagel Multinak etc.

GUIDE POIGNEES DURAWIRE

Pour guider les livres rassemblés sur le tapis roulant.

Pour utilisation sur machines Muller Martini, Wohlenberg et autres grandes marques de machines de piquage, rassemblement.

Matière HDPE (haute densité Polyéthylène) et PPH (Polypropylène) en thermoplastique de haute qualité.

Selon spécification de machine d'origine.
